David Oren - Chief Strategy Officer

Oren joined UVeye when it was founded in 2016. He is a very engaged entrepreneur and active member of various other Israeli technology corporations, like Pirveli Ventures, a family office fund focusing on investments in Israeli start-ups, and Flora Fotonica, a developer of a revolutionary lighting system for commercial greenhouses.

He still serves as an active board member and director in several startups such as GordianSurgical and EcoWavePower.

Formerly, Oren worked as a software developer and project manager in various other technology and software companies. Oren studied holds a B.S.C in Computer Science Comme Laude.
